

New Album Released By Local Christian Recording Artist

Rick Maas of North East, PA has been writing and recording music for many years. His latest album "The Journey Home" was released Labor Day weekend. The new CD album features 12 new songs and was recorded at Humbleheart Studio Productions, a new recording studio located in North East.

Since 1992 songs from Rick's albums have been heard on several Christian radio stations.

All of his previous albums were recorded in Atlanta, GA, with his producer and good friend John McLane who is also a native of North East.

Christopher Hooks of Findley Lake, NY came on board during 2005 helping to build the new studio. He is the main producer and technician for Humbleheart Studio Productions. Chris and Rick recorded the new album during last winter and the spring of this year. John McLane recorded overdubs and produced the master at his studio now located in Fort Myers, FL.
